ELECTORAL DIVISION PROFILES: AN INTRODUCTION

These profiles have been produced to support elected members, constituents and other interested parties in understanding the demographic, economic, social and educational profile of their neighbourhoods. We have used the latest data available at the time of publication.

Much more data is available from national and local sources than is captured here, but it is hoped that the profile will be a useful starting point for discussion, where local knowledge and experience can be used to flesh out and illuminate the information presented here.

The profile can be used to help look at some fundamental questions e.g.

- Does the age profile of the population match or differ from the national profile?
- Is there evidence of the ageing profile of the county in all the wards in the Division or just some?
- How diverse is the community in terms of ethnicity?
- What is the impact of deprivation on families and residents?
- Does there seem to be a link between deprivation and school performance?
- What is the breakdown of employment sectors in the area?
- Is it a relatively healthy area compared to the rest of the district or county?
- What sort of crimes are prevalent in the community?

A vast amount of additional data is available on the **Suffolk Observatory**

[**www.suffolkobservatory.info**](http://www.suffolkobservatory.info)

The Suffolk Observatory is a free online resource that contains all Suffolk's vital statistics; it is the one-stop-shop for information and intelligence about Suffolk. Through data, reports and profiles, the Suffolk Observatory provides a comprehensive picture of the County. It is a great source for useful facts and figures that can be used for writing reports and presentations, informing strategic and business planning, preparing funding applications or supporting academic research. Data is presented around the key themes of education and skills, economy and employment, health and care, population, deprivation, housing, environment, transport and travel and crime. All areas of the county are covered, right down to district, ward and parish level, with information easily accessible in a variety of formats. You can also build your own reports by different themes and topics.

Technical Notes:

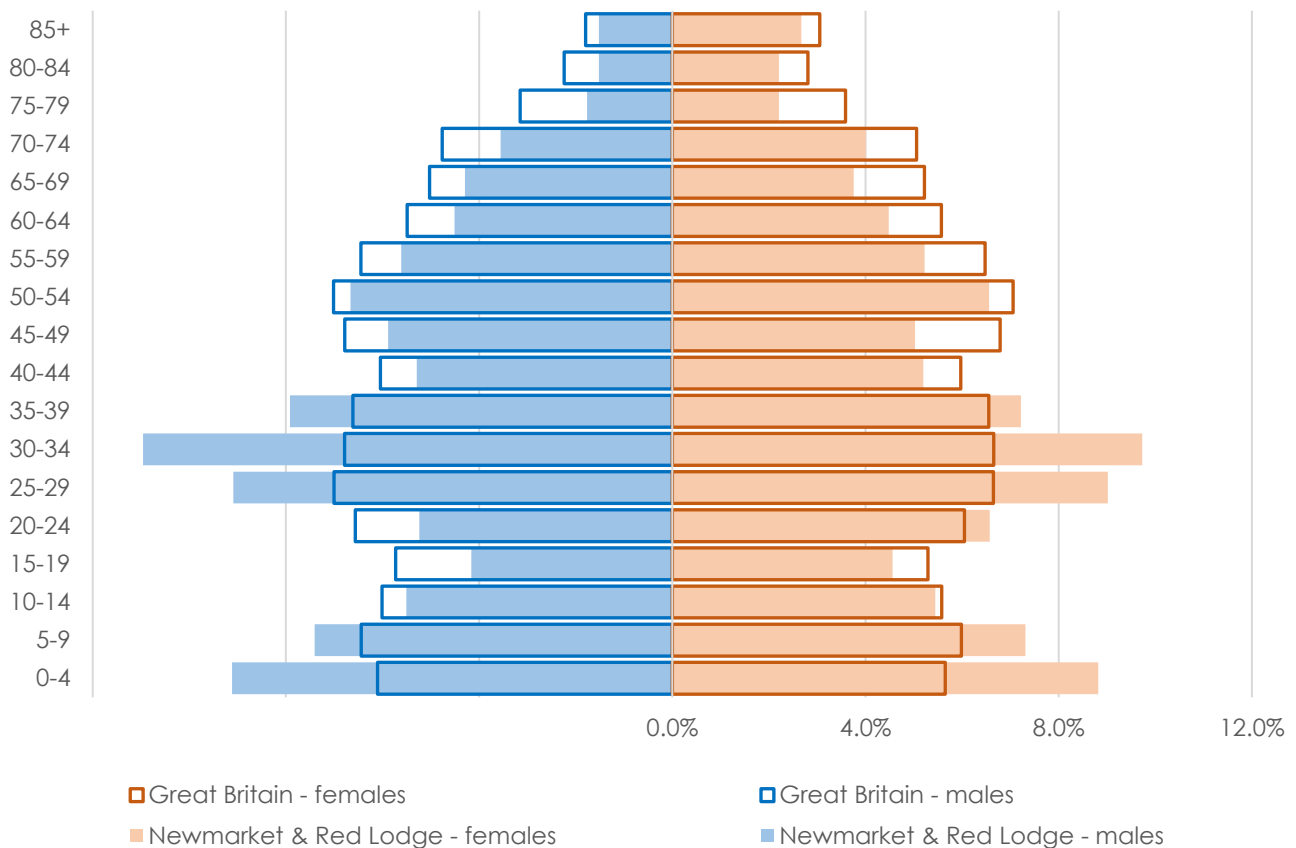

1. Where Electoral Divisions do not exactly match ward boundaries, we have adopted a "best fit" approach to produce a dataset.
2. District, county and national level data is provided where possible to provide a context for comparisons.

DEMOGRAPHIC PROFILE - AGE

In mid-2018, the population of Newmarket and Red Lodge stood at 14,990, an increase of 16.9% since the 2011 Census. The age structure of the component wards and the division as a whole is set out below.

	Newmarket & Red Lodge Division	Chedburgh & Chevington	Iceni	Kentford & Moulton	Newmarket East	Newmarket North
All ages	14,990	205	6,000	1,780	1,485	5,520
0-4	1,345	15	745	120	110	350
5-9	1,105	10	540	85	125	340
10-14	820	10	345	105	90	275
15-19	655	15	225	80	110	225
20-24	885	5	425	55	85	315
25-29	1,355	0	695	85	110	465
30-34	1,550	5	785	75	135	550
35-39	1,135	10	445	100	105	475
40-44	785	5	315	70	70	325
45-49	815	5	285	105	80	340
50-54	990	25	310	150	100	410
55-59	810	30	245	120	90	330
60-64	675	10	205	115	75	265
65-69	605	15	135	120	70	265
70-74	565	20	135	140	35	235
75-79	300	10	40	70	30	150
80-84	280	10	70	60	25	115
85-89	170	5	45	60	15	40
90+	145	5	20	65	20	40

Note: figures may not sum due to rounding

- The age pyramid for Newmarket and Red Lodge shows a far higher than average proportion of people between the ages of 25 and 34, and under 10
- The most common age group in Newmarket and Red Lodge is 30-34 year olds, closely followed by 25-29 year olds. The number of young children requiring school places looks set to increase in the coming years
- There is a much lower than average number of people of retirement age

ETHNICITY

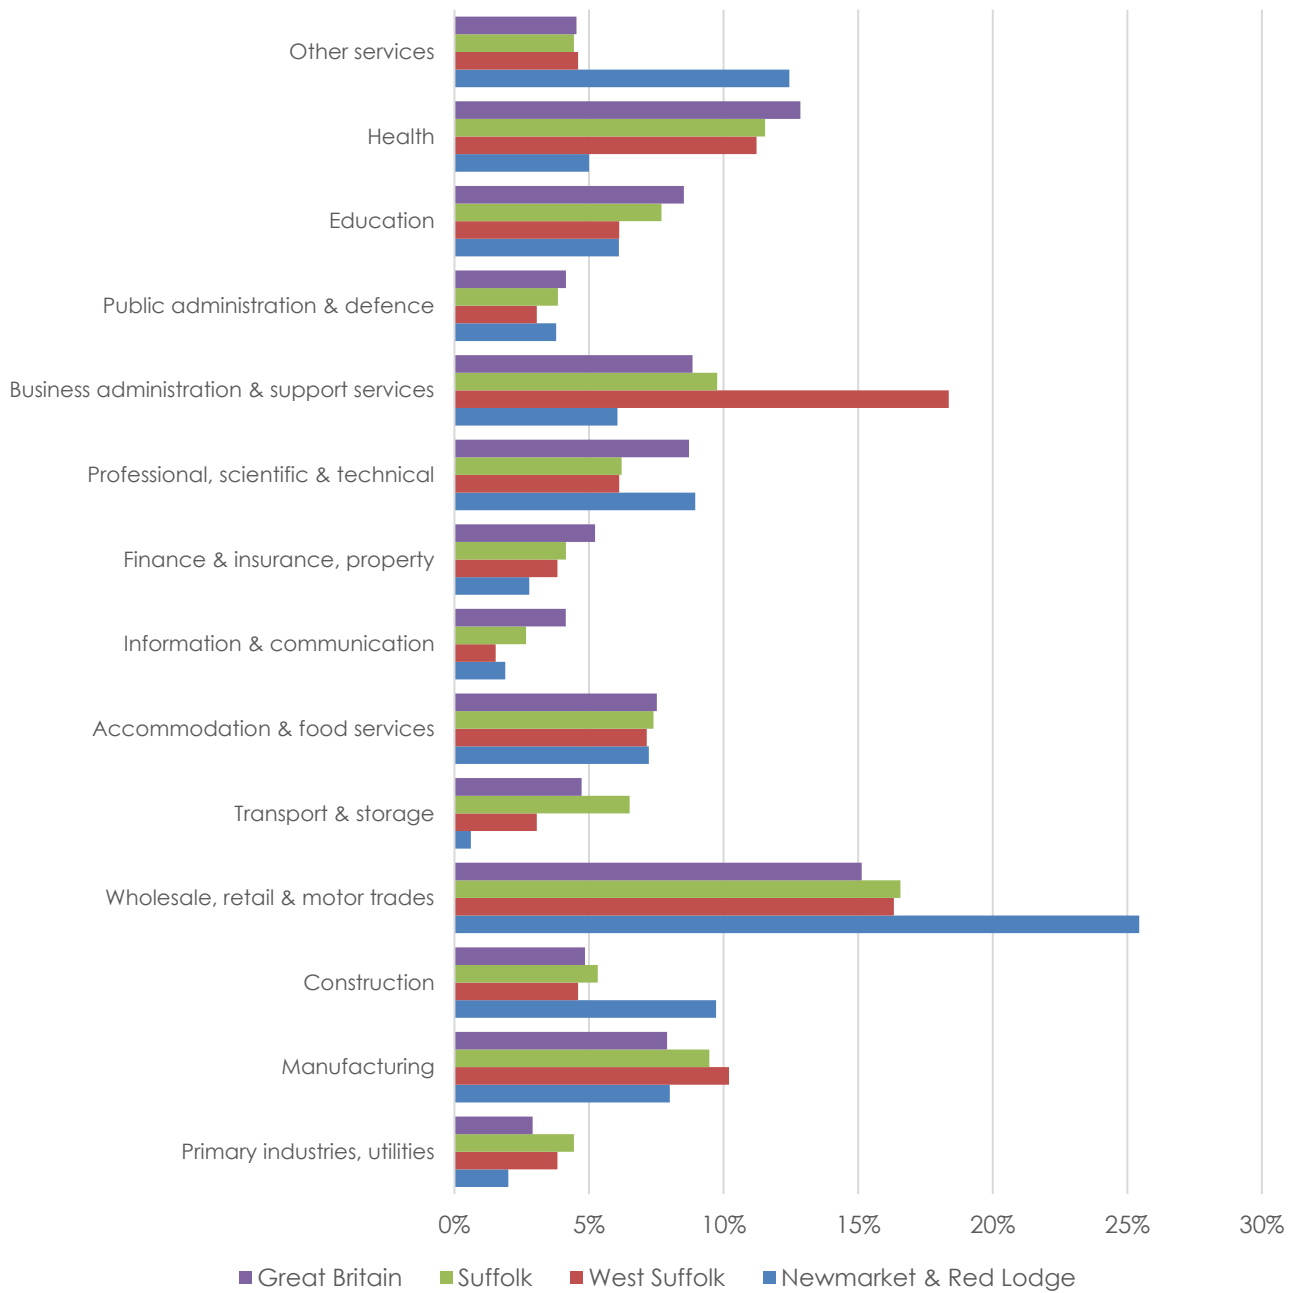

- According to the latest data (2011 Census), 92.6% of the population of Newmarket and Red Lodge are white
- 7.4% of the population in this Division are of other ethnic backgrounds, nearly one and a half times the proportion at the time of the 2001 Census
- Newmarket and Red Lodge has a similar diversity profile to Forest Heath district generally, and generally higher proportions of other ethnic groups than Suffolk as a whole

	All people	White		White British		Mixed		Asian and Asian British		Black and Black British		Other Ethnic Group		Black or Minority Ethnic Total	
	Count	Count	%	Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
Newmarket and Red Lodge	12,823	11,869	92.6	10,211	79.6	350	2.7	276	2.2	229	1.8	99	0.8	954	7.4
West Suffolk	170,756	161,522	94.6	147,381	86.3	3,148	1.8	3,087	1.8	2,198	1.3	801	0.5	9,234	5.4
Suffolk	728,163	693,195	95.2	661,458	90.8	12,472	1.7	13,131	1.8	6,854	0.9	2,511	0.3	34,968	4.8
England & Wales			86.0		80.5		2.2		6.7		2.8		0.4		12.1

ECONOMY

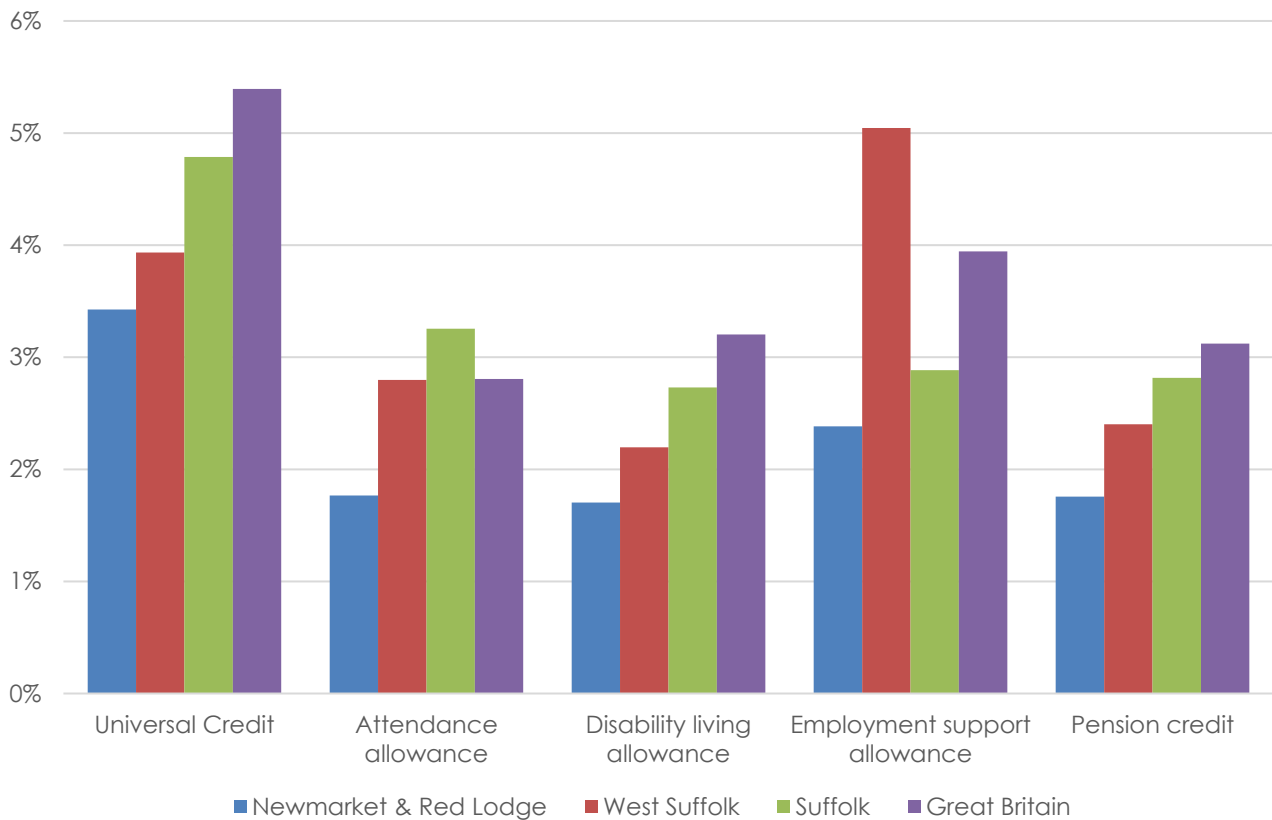

There are 9,000 people employed in Newmarket and Red Lodge.

- There is a good mix of employment in Newmarket and Red Lodge.
- The key employment sectors in the division are wholesale, retail & motor trades, other services, construction, professional, scientific and technical activities and manufacturing.
- These five sectors account for nearly two thirds of jobs in the division.

LABOUR MARKET

BENEFIT CLAIMANTS

- Newmarket and Red Lodge has lower proportions of benefit claimants than the district, county and Great Britain averages
- 3.4% of the 18+ population of Newmarket and Red Lodge were claiming Universal Credit according to provisional December 2019 figures, compared to 5.4% of people across Great Britain as a whole
- The phased shift to Universal Credit has resulted in no appropriate time series data being available for these indicators.

England - all schools		649056	65%				11%	104	105

- The latest Key Stage 2 attainment results show that pupils at Moulton CEVCP School performed above the national average across all attainment and progress measures
- Performance was mixed at Laureate Community Academy and St Louis Catholic Academy, although progress in writing and the average score in reading and maths was well above the England average at both schools
- The percentage of pupils meeting the expected Key Stage 2 standard was above the England average at Laureate Community Academy, Moulton CEVCP School and St Louis Catholic Academy.
- Overall progress at St Christopher's CEVCP School was average in reading and writing and below average in maths

Key Stage 4 (Age 16) & Key Stage 5 (Age 18)

There are no Upper schools within the Division

NEET % (NOT IN EDUCATION, EMPLOYMENT OR TRAINING)

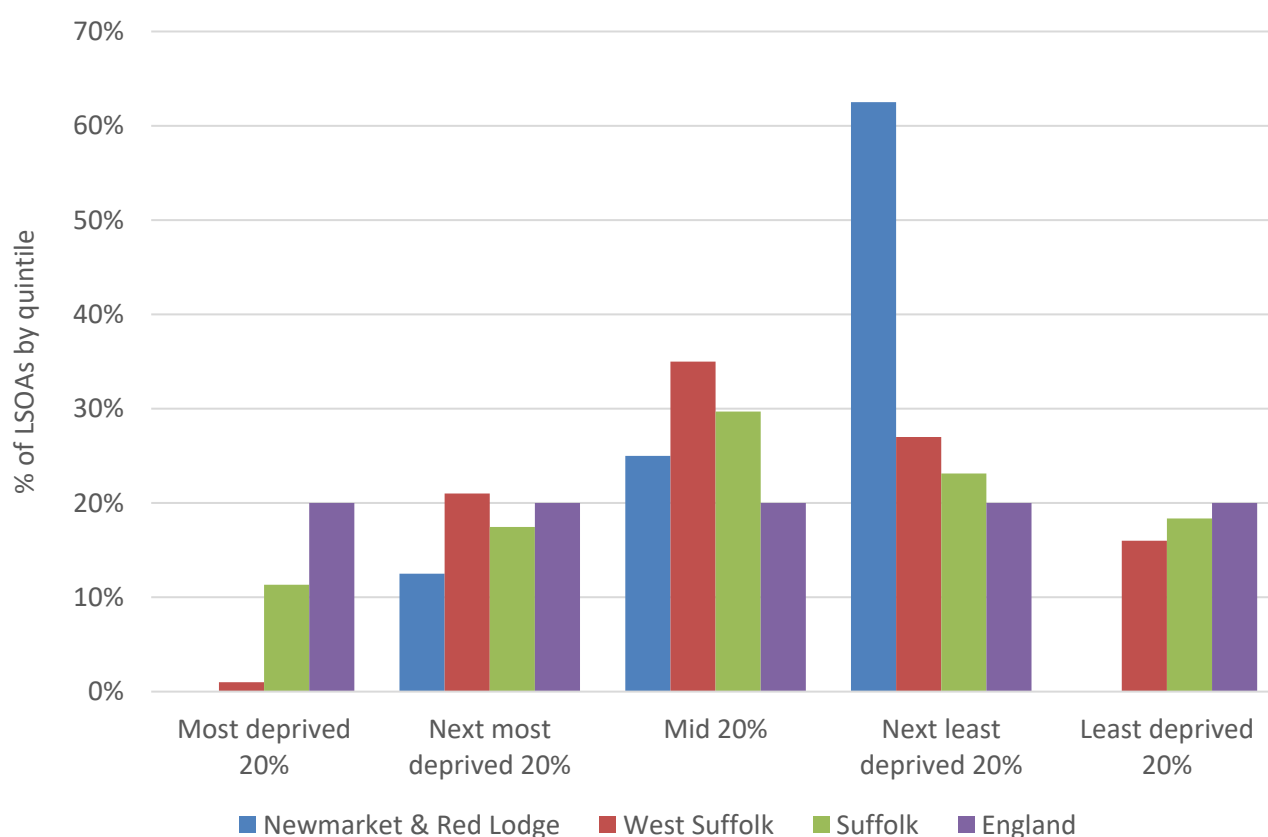

- In December 2019, 3.4% of 16-18-year-olds were classified as NEET in Newmarket and Red Lodge (where current activity is known)
- NEET levels in Newmarket and Red Lodge fluctuate considerably. According to the latest data the proportion of 16-18-year-olds classified as NEET is slightly higher than the district and country average
- There have been periods of time over the past five years when the NEET rate has been below the district and county average

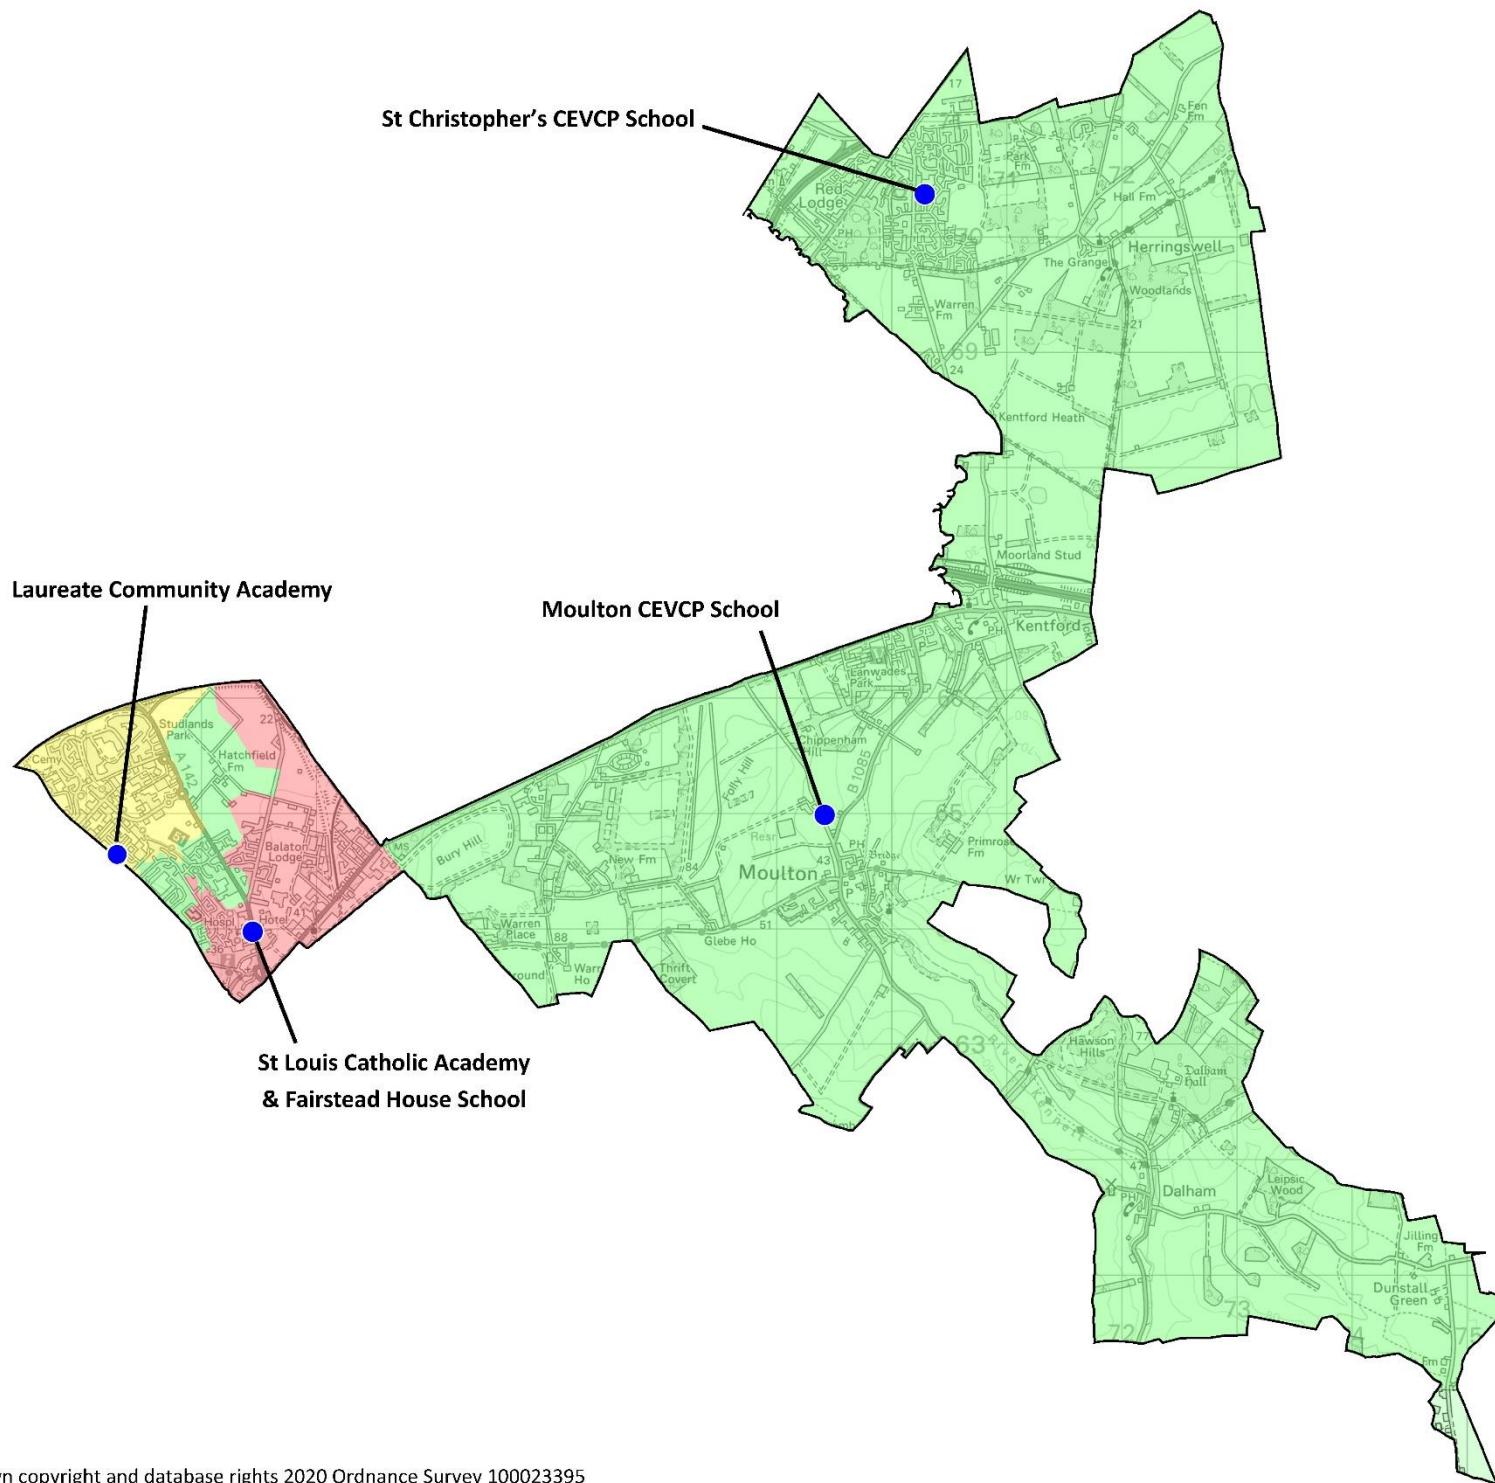

INDEX OF MULTIPLE DEPRIVATION (IMD) 2019 (SEE MAP OVERLEAF)

The IMD combines a number of indicators, chosen to cover a range of economic, social and housing issues, into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation. Small areas (Lower Super Output Areas, average population 1,700) are most usually described as being in 1 of 5 quintile bands. The bottom quintile represents the 20% of areas that are the most deprived in the country; these are shaded red on the map. The top quintile represents the least deprived areas in the country, and is shaded green.

The Index is widely used to analyse patterns of deprivation, identify areas that would benefit from special initiatives or programmes and as a tool to determine eligibility for specific funding streams.

- The IMD 2019 shows that relative deprivation levels are below average Newmarket and Red Lodge division.
- Of the eight Lower Layer Super Output Areas (LSOA) comprising the division, five are ranked in the second least deprived 20% of LSOAs in the country, two are in the mid quintile and one is in the next most deprived quintile.

IMD 2019 quintile

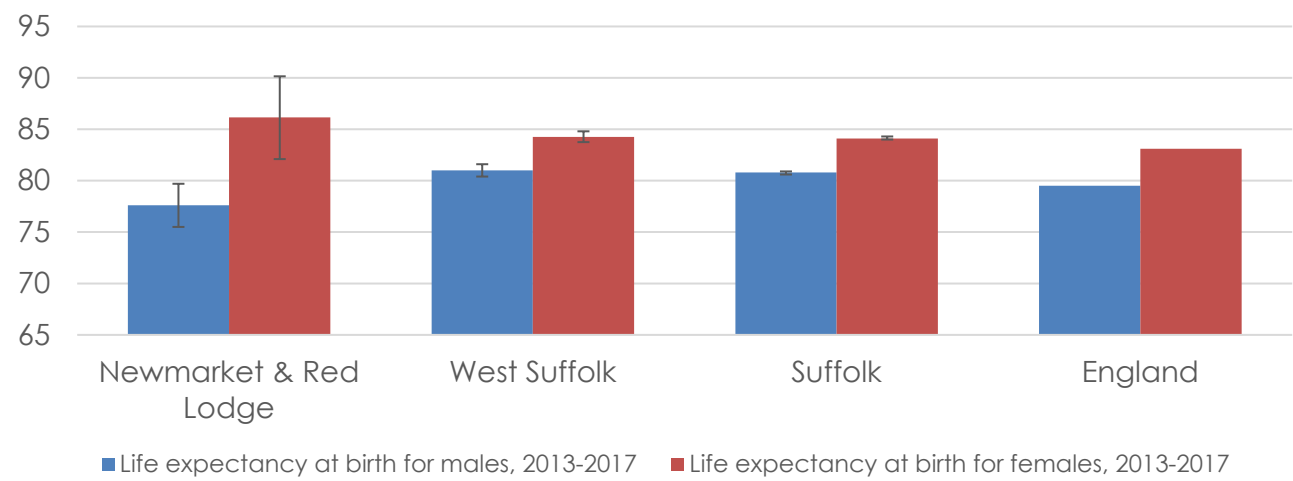

School Type

HEALTH

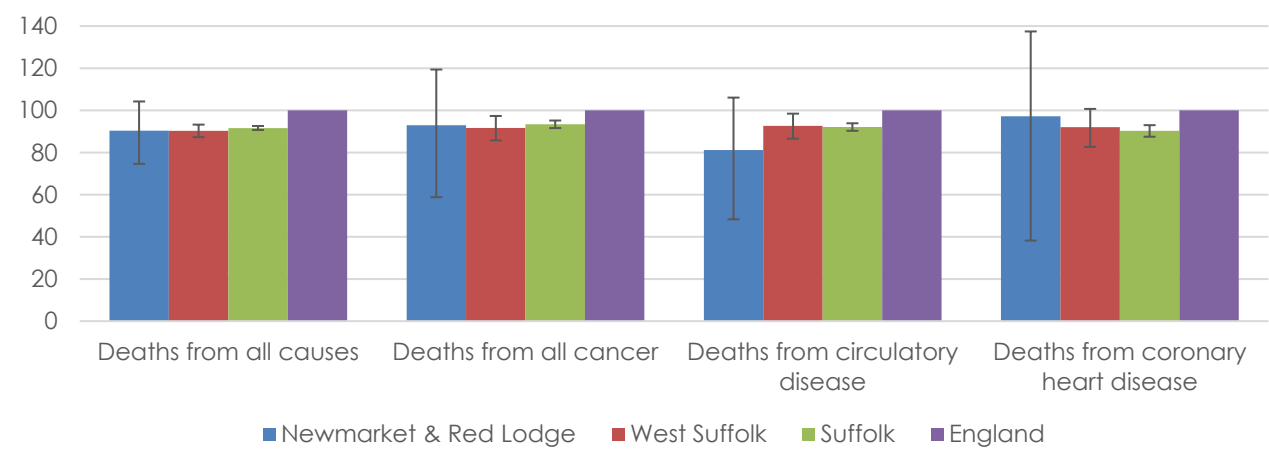

The local data used here is based on relatively small numbers. The confidence limits provide an indication of the reliability of the data. The 95% confidence intervals utilised on the chart provide a range within which there is 95% chance of the true result lying.

LIFE EXPECTANCY AT BIRTH

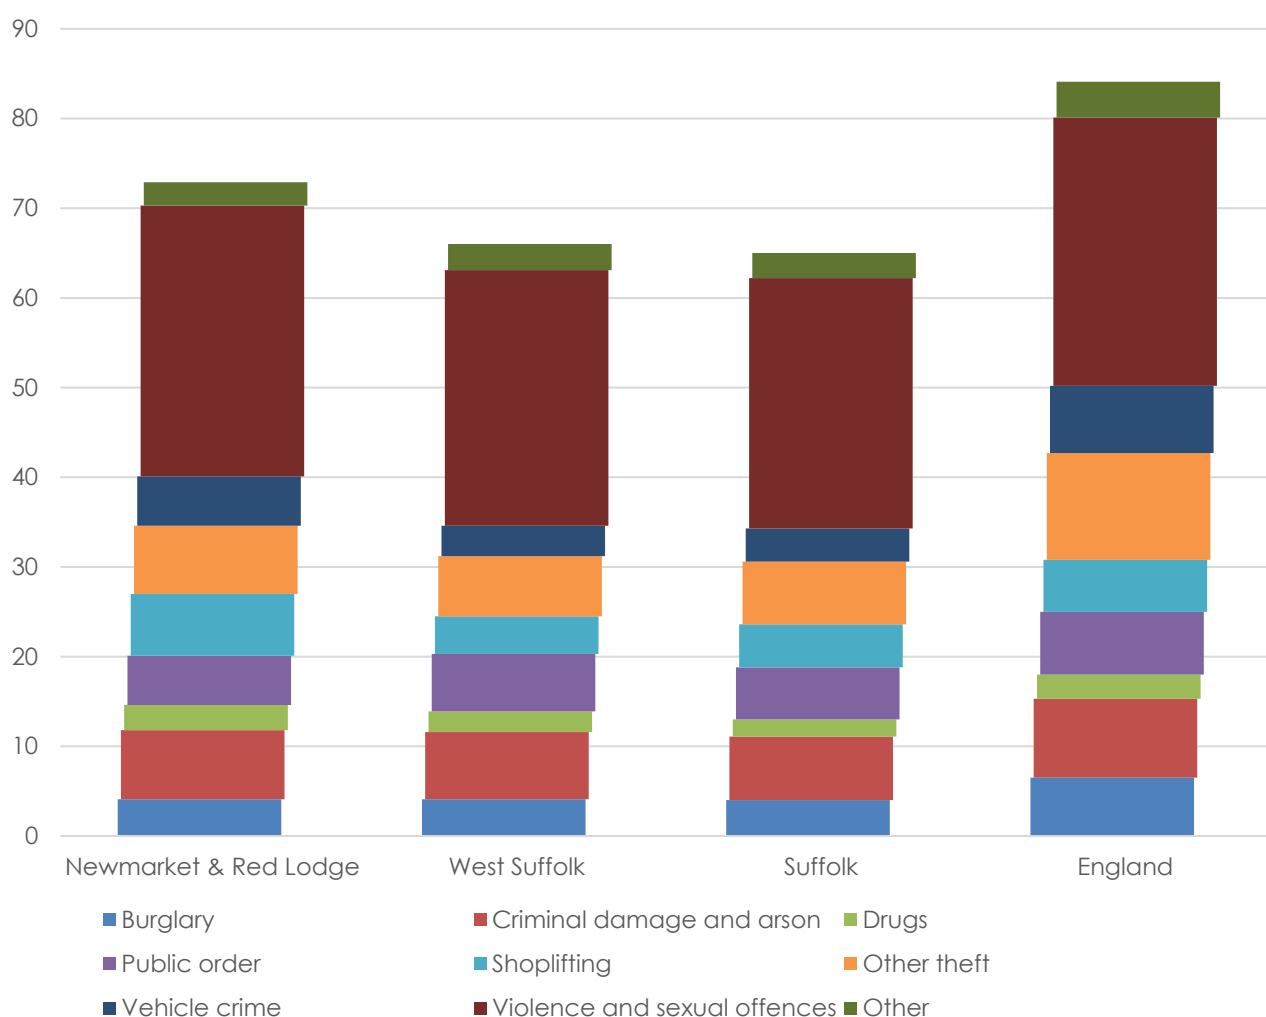

- Estimates for life expectancy in Newmarket and Red Lodge are slightly below the district, county and England average for males and slightly above average for females

DEATHS, UNDER 75 YEARS, STANDARDISED MORTALITY RATIO

- The estimated early death rate for all causes in Newmarket and Red Lodge is marginally below that for the UK whilst being in line with district and county levels
- The standardised mortality ratio data shown here means that for every 100 early deaths from all causes across the UK as a whole, there are an estimated 90.4 comparable deaths in Newmarket and Red Lodge
- The estimated rate of deaths due to coronary heart disease in Newmarket and Red Lodge is higher than West Suffolk and Suffolk county averages
- The confidence intervals around these data at the local level are significant

CRIME & COMMUNITY SAFETY

- Newmarket and Red Lodge has a higher rate of crime than the district and county average according to 2018-19 data
- There are just over 70 crimes recorded in the division for every 1,000 residents, compared to 66 in West Suffolk and 65 in Suffolk as a whole
- The crime profile in Newmarket and Red Lodge is similar to the district and county profiles
- "Violence and sexual offences" are the most common type of criminal activity recorded in the division, with more than 30 incidents per 1,000 residents
